

A photograph showing a male medical professional in a light blue shirt and a female patient in a dark top. They are both looking at a Canon CR-2 eye screening machine. The machine is white and blue, with a screen displaying a retinal image. The patient is holding a tablet that also shows a retinal image. The background is a plain white wall.

## Hampshire & Isle of Wight Diabetic Eye Screening Programme

### What is diabetic eye screening?

The Hampshire & Isle of Wight Diabetic Eye Screening Programme serves the diabetic population of Southampton, Portsmouth, Fareham & Gosport, South East Hampshire, North East Hampshire, North Hampshire, West Hampshire and the Isle of Wight.

For patients referred to the programme by their General Practice, we are responsible for inviting, screening, grading & referring to the Hospital Eye Services as required.

The programme engages a team of qualified screeners who screen from a number of GP Practice, Health Centre and community locations.

The programme has over 100,000 patients with diabetes. We can offer patients appointments at a range of venues in Hampshire and the Isle of Wight.

**If you live in Hampshire or the Isle of Wight and would like to book an appointment to have your eyes screened, please call our booking office on 01983 898700**
